SUMMARY

Software Engineer with 1+ year of experience building scalable SaaS products. Skilled in full-stack development using the MERN, Go, Python, and Java, with a strong focus on backend systems, APIs, and modern web applications. 2023 Computer Science graduate passionate about designing reliable software, solving complex engineering problems, and continuously learning new technologies.

EDUCATION

B.E., Computer Science Engineering

Anna University

Thirumalai Engineering College, kanchipuram

Graduated june 2023

8.19 CGPA

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Go, Python, Java, C

Frameworks & Technologies: React.js, Node.js, Express.js, FastAPI, HTML, CSS

Databases: PostgreSQL, MongoDB, MySQL, Redis, ClickHouse

Libraries & ORMs: Prisma, NumPy, Pandas, Matplotlib

Tools & Platforms: Docker, Git, GitHub, Linux

Certifications: Full Stack Development – Novitech, Python Programming – Eduprep

PROFESSIONAL EXPERIENCE

Atatus, Chennai, Tamil Nadu: Software Engineer

Jul 2025 – May 2026

- Contributing to the development of scalable SaaS products, including observability and GRC platforms.
- Building and maintaining backend services and APIs using Node.js and Go, ensuring high performance and reliability.
- Working with databases such as PostgreSQL, MongoDB, Redis, and ClickHouse to manage large-scale application data.
- Collaborating with cross-functional teams to design and implement features that improve system monitoring, data processing, and user experience.

Atatus, Chennai, Tamil Nadu: Software Engineer

May 2024 – Oct 2024

- Contributed to backend development and enhancement of an existing SaaS observability platform using Node.js, Redis, MongoDB, and ClickHouse.
- Implemented observability features including alerting, forecasting, and anomaly detection to improve system monitoring and operational visibility.
- Integrated Azure and AWS Marketplace workflows to support product deployment and subscription management.
- Improved authentication mechanisms and implemented Microsoft Teams integrations for notifications and collaboration.

Senchola University, Chennai, Tamil Nadu: Frontend Developer Intern

Oct 2023 – Jan 2024

- Developed responsive user interfaces using React.js.
- Translated UI/UX designs into interactive web applications.
- Collaborated with design and development teams to enhance user experience.

PROJECTS

GMart E-commerce Platform

Frontend development for an e-commerce platform as part of a team project using React.

- Built responsive UI components for product listing, cart, and checkout features.
- Collaborated with team members to integrate frontend components with backend APIs.

Real-Time Chat Application

Built a real-time chat application using the MERN stack with WebSocket-based communication.

- Implemented real-time messaging using WebSockets for instant message delivery.
